## FILM SCREENING & DISCUSSION: **DROP - Water Connects Us All: Virtual Film Screening and Discussion**

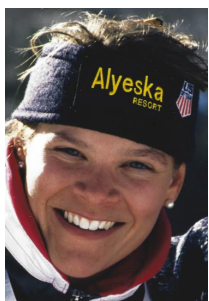

Gallatin Valley Earth Day and Montana Citizens' Climate Lobby presents: **"Drop - Water Connects Us All."**

**"Drop - Water Connects Us All"** follows a single drop of water on its journey from the Continental Divide, through the rivers of Montana, Idaho, and Washington, and into the Pacific Ocean. Along the way it uncovers the truths how changes to the climate may derail that journey with massive harmful consequences, not only to the people whose lives are built around spring run-off, but all of us. From a single drop of water, we are all connected.

After the film, join us for a discussion and Q&A with our panel and MC, Travis Kidd.

Hilary Hutcheson

Hilary Lindh

David Brooks

Panelists include:

- **Hilary Hutcheson** - Drop film producer/star, fly fishing guide and owner of Lary's Fly & Supply, Columbia Falls Montana
- **Hilary Lindh** - World Champion and Olympic medalist alpine skier, currently the Program Director and Head Coach of Flathead Valley Ski Education Foundation
- **David Brooks** - Executive Director of Montana Trout Unlimited

**MC: Travis Kidd** - Conservationist and environmental educator, Education Chair and Board Member of Sacajawea Audubon Society, background in "Science and Natural History Filmmaking"

## BOOKCLUB: "Erosion: Essays of Undoing" by Terry Tempest Williams - book club discussion

Tuesday, April 19, 2022 at 6:30pm -7:55pm  
in the **Large meeting room @ Bozeman Public Library**  
626 East Main St, Bozeman (opposite Montana Ale Works)

The April book club meeting at Bozeman Public Library is part of a community wide Earth Day celebration.

### **Erosion: Essays of Undoing**

In *Erosion*, Terry Tempest Williams's fierce, spirited, and magnificent essays are a howl in the desert. She sizes up the continuing assaults on America's public lands and the erosion of our commitment to the open space of democracy.

Want to save resources in honor of Earth Day? Consider 'borrowing' the audiobook of *Erosion*, read by the author, Terry Tempest Williams on BPL's Hoopla app. Listen to the audiobook on your device or computer or laptop or phone, free with your Library card.

**FILM: Bozeman Doc Series presents "River"**

**Emerson Center for the Arts & Culture**

The Bozeman Doc Series in partnership with Gallatin Valley Earth Day is excited to present the Montana premiere of the new documentary, *River*, from award-winning filmmaker Jennifer Peedom.

**6:00 pm: Reception** in the Emerson ballroom featuring food, drink, and information from event sponsors Gallatin Valley Earth Day, Western Sustainability Exchange and others. The event will also feature our annual Bozeman Doc Series silent auction featuring items from sponsors such as Red Tractor Pizza, The Lark, Reintegrative Massage, and many more.

**Tickets** are available at the door or before the show online at [www.bozemandocseries.org](http://www.bozemandocseries.org), where you can also buy Season Passes and 7-film punch cards, learn more about the series, and view trailers for upcoming films.

Throughout history, rivers have shaped our landscapes and our journeys; flowed through our cultures and dreams. *River* takes its audience on a journey through space and time; spanning six continents, and drawing on extraordinary contemporary cinematography, including satellite filming, the film shows rivers on scales and from perspectives never seen before. Its union of image, music and sparse, poetic script create a film that is both dream-like and powerful, honoring the wildness of rivers but also recognising their vulnerability.

Filmed in 39 countries, *River* is a cinematic and musical odyssey that explores the remarkable relationship between humans and rivers written by acclaimed author Robert Macfarlane, with music by Richard Tognetti and the Australian Chamber Orchestra, and featuring music by Jonny Greenwood and Radiohead, and narration by Willem Dafoe.

*River* world premiered at last fall's prestigious Telluride Film Festival to widespread critical acclaim.

*Masks are now optional in the theater.*

**REGISTER** for this free talk at [www.gallatinvalleyearthday.org](http://www.gallatinvalleyearthday.org)

What do pet waste, litter and electronic waste have in common? They are all common forms of municipal waste that can have impacts on our local water resources if they are not managed properly! Learn about the many ways that the things we buy and throw away can impact our water resources, and more importantly, discover simple actions you can take to protect our water resources by reducing, reusing and recycling.

**Alexis Alloway** is the Municipal Contract Administrator for Republic Services in Bozeman, spearheading recycling education and community outreach. Alexis has worked as an environmental educator for nearly two decades and excels at helping people understand complex waste management issues and the simple actions we all can take to minimize our environmental footprint.

## GIVEAWAY: **Bird Safe Windows supplies and instructions**

**Location: Kenyon Noble Garden Center**

Pick up your free paint pen - courtesy of Kenyon Noble - and a pamphlet on how to make your windows bird safe! It's easy and inexpensive.

Glass collisions are taking a huge toll on our birds, with up to a billion birds being killed each year in the U. S. Birds don't understand windows the way we do - they can't tell reflections from reality. What appears to them as forest and sky often turns out to be merely a reflection in a solid piece of glass. About half of those billion bird deaths occur on residential windows, making homeowners a vital part of the solution. There is an inexpensive way to draw lines on your windows, using a paint pen, so birds will not fly directly into your window.

Get your free paint pen - while supplies last - & instructions and save the birds!
